

KG-LLM (ablation) Knowledge Prompt

Training Question:

Node_1 has relation_1 with node_2, and node_2 has relation_2 with node_3. Is node_1 connected with node_3?

Training Answer:

The answer is yes.

Testing Question:

Node_6540 has relation_9 with node_765, and node_765 has relation_4 with node_2148. Is node_6540 connected with node_2148?

MODEL OUTPUT

Testing Answer: The answer is yes.

KG-LLM Knowledge Prompt

Training Question:

Instruction:

Below is the detail of a knowledge graph path. Is node_1 connected with node_3?

Answer the question by reasoning step-by-step. Choose from the given options:

1. Yes

2. No

Input:

Node_1 has relation_1 with node_2, and node_2 has relation_2 with node_3.

Training Answer:

Response:

Node_1 has relation_1 with node_2 means Jack bought Shampoo. Node_2 has relation_2 with node_3 means Shampoo is related with Hair Conditioner. So Jack will also buy Hair Conditioner. The answer is yes.

Testing Question:

Instruction: [...]

Input: Node_6540 has relation_9 with node_765, and node_765 has relation_4 with node_2148.

MODEL OUTPUT

Testing Answer: *Node_6540 has relation_9 with node_765 means Nova share similar interests ...* The answer is no.
