#### Medical Knowledge Card

##### Yongquan Point (KI1):

Yongquan (KI1) is one of the commonly used acupoints on the Kidney Meridian of Foot-Shaoyin. It is primarily used for treating lung system diseases, difficulty in defecation, difficulty in urination, and running piglet qi.

##### Location:

Located on the sole of the foot, in the depression when the foot is curled, approximately at the junction of the anterior 1/3 and posterior 2/3 of the line connecting the web margin between the 2nd and 3rd toes and the heel.

##### Meridian:

Kidney Meridian of Foot-Shaoyin

##### Moxibustion Effects:

Primarily treats lung system diseases, difficulty in defecation, difficulty in urination.

##### Moxibustion Method:

Suspended Moxibustion: After lighting the moxa stick, apply moxibustion about 2-3 cm above the Yongquan point. It is best to avoid a burning sensation. Generally, apply moxibustion to each Yongquan point for 5-10 minutes. Apply every other day.

#### Dietary Recommendations

- During the onset of the illness, it is advisable to consume mashed eggplant and chew it thoroughly to swallow the juice, or drink loofah juice or take dried persimmon frost dissolved in water. These can all serve as supportive treatments.
- Eat fresh vegetables and fruits that are rich in vitamins.
- Eat small meals more frequently.

#### Dietary Restrictions

Avoid spicy and irritating foods, as well as hot-natured, dry, hard-to-digest, and difficult-to-swallow foods.

#### Lifestyle Management

- During recovery, ensure adequate rest and maintain good sleep quality.
- Keep the indoor environment clean and hygienic, with a suitable temperature and proper humidity. Make sure bed sheets and bedding are clean, dry, and soft.
- Engage in moderate exercise, but avoid overexertion.
- Keep warm and dress appropriately according to the weather to prevent catching a cold.
- Be mindful of the spread of pathogens—avoid facing others when sneezing or coughing.
